How does the New Member Reward Program work?

2. Open an approved brokerage account with Open to the Public Investing (“Public Investing”).
3. Deposit funds into your account.
4. Claim your reward from the button on the top right of your home screen!

How do I know if I am eligible to claim my reward?

To be eligible to claim your reward, you must have an approved Public Investing brokerage account and have deposited at least \$20 into that account. For more eligibility requirements, see the “**Terms and Conditions**” below.

A “reward” is a fractional share of a designated stock, ETF or cryptoasset. You will only be able to claim a cryptoasset reward if you have successfully opened an account with Apex Crypto LLC.¹

Rewards are offered as fractional shares. Fractional shares have limitations, like limited or no voting rights, and are not transferable. See [here](#) to learn more about fractional share investing.

¹ Cryptocurrency execution and custody services are provided by Apex Crypto LLC (NMLS ID 1828849) through a software licensing agreement between Apex Crypto LLC and Public Crypto LLC. Apex Crypto LLC is not a registered broker-dealer or a member of SIPC or FINRA. Cryptocurrencies are not securities and are not FDIC or SIPC insured. Apex Crypto LLC is licensed to engage in virtual currency business activity by the New York State Department of Financial Services. For more information, see [Legal Disclosures, Apex Crypto](#).

How does Public choose rewards and how much value can you claim?

You will be able to choose a reward from a pool of designated stocks, ETFs and/or cryptoassets. Stocks and ETFs are designated from Public Investing’s inventory of settled

shares. They are chosen from among the top 50 most popular stocks on the Public app and have a large market capitalization of \$10 billion or more. Cryptoassets selected are currently available in all 50 states, are among the top 100 coins by market capitalization, and meet the [NY Greenlist Standard](#).

The value of the reward you receive varies from \$3 to \$300 and may change from time to time based on market movements. Approximately 90% of participants will receive a reward with a value of \$3, approximately 9.7% of participants will receive a reward with a value of \$5, and approximately 0.3% of participants will receive a reward with a value of \$300.²

² The range in value of rewards and the probabilities of receiving a reward with a specific value may change for limited times in connection with specific promotions.

How can I claim my reward?

Public will alert you as soon as you are cleared to claim your reward. Tap on the notification and choose from one of the available rewards.

Once you have claimed your reward, the cash value of the reward may not be withdrawn for 90 days.

Before investing in an ETF, investors should consider the investment objectives, risks and charges and expenses of the ETF before investing. Although ETFs are designed to provide investment results that generally correspond to the performance of their respective underlying indices, they may not be able to exactly replicate the performance of the indices because of expenses and other factors. A prospectus contains this and other information about the ETF and should be read carefully before investing. Customers should obtain and review prospectuses from issuers and/or their third party agents who distribute and make prospectuses available for review.

At Public, our mission is to open the markets to all. Trades are commission-free, meaning \$0 commission trading on self-directed individual cash brokerage accounts that trade U.S. listed securities placed online. Other fees may apply. See Public's [Disclosures](#) to learn more.
